Dear Hossein:

I am writing to inform you that I discovered a typographic error I made in BLDTA-20120224ABQ, granted on July 11, 2012. I inadvertently entered the wrong value for the transmitter output power. The correct value I should have entered is 0.89 kW (not 0.5 kW).

Is there any way you can correct the transmitter output power on the license for me? I greatly appreciate your kind assistance and attention on this!

Sincerely,

Christine Meng
