RE: WRKC Radio Azimuth Verification

BL No.: 2011-2861-00

Dear Mr. Humphrey:

This letter is to certify that I have reviewed the installation of the WRKC directional antenna mounted on the tower atop Holy Cross Hall at 133 North Franklin St. in Wilkes-Barre, PA. I have verified that this antenna is mounted according to the manufacturer's installation specifications with the radiating bays facing an azimuth of 258 degrees based on True North datum. This direction is accurate to plus or minus one degree.

I am a licensed surveyor in the State of Pennsylvania. Please feel free to contact me with any further questions.

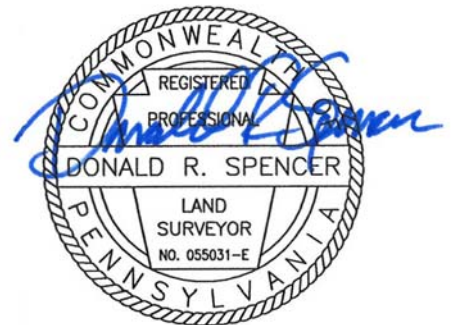

Sincerely,

Donald R. Spencer, P.L.S.
Survey Business Unit Leader
