In Re: K279AB, San Antonio, TX
Facility ID # 6147
BPFT-20110118ABN

Dear Applicant:

This refers to the above-captioned application for K279AB, San Antonio, Texas.

Pursuant to 47 C.F.R. § 17.7, notification to the Federal Aviation Administration ("FAA") is required concerning the proposed antenna structure. In addition, 47 C.F.R. § 17.4(a) states that any proposed or existing antenna structure that is required to notify the FAA must register with the Commission prior to the proposed construction or alteration. Our records indicate that the proposed antenna structure has not been registered with the Commission. FCC antenna structure registration may be accomplished electronically via the Internet at <http://www.fcc.gov/wtb/antenna/>. Please note that FAA approval is necessary in order to obtain FCC antenna structure registration. Following FCC registration of the antenna structure, a curative amendment to the application, which includes the antenna structure registration number, must be submitted to the Commission so that processing of your application may be completed.

Further action on the subject application will be withheld for a period of thirty days from the date of this letter to provide an opportunity to submit the requested information. Failure to respond within this time period will result in the dismissal of the application pursuant to 47 C.F.R. § 73.3568. Please note, amendments must be filled in the same manner as the original application.

Sincerely,

James D. Bradshaw
Deputy Chief
Audio Division
Media Bureau
