In re: KYLA(FM) Homer, Louisiana
NWLA Broadcasting Company
Facility ID: 49880
Main Studio Location

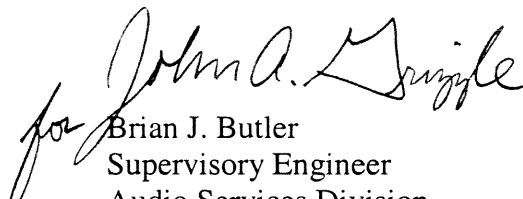

Dear Mr. Brinig:

This refers to your letter dated August 20, 2001 which requests a change in the main studio location authorized by our letter dated June 8, 2001. Your letter includes a supplemental engineering showing used to demonstrate that KYLA's proposed main studio, located at 32° 32' 12.5" NL, 93° 45' 42" WL, is within the 70 dBu field strength contour for the facilities specified by license File No. BLH-19980204KC and, therefore, could be used as KYLA's main studio.

Based upon our review of your August 20, 2001 request, and information on file with the Commission, we find that KYLA's proposed main studio location is in compliance with 47 C.F.R. § 73.1125.

We will associate this letter with KYLA's license file. Upon commencement of operations from the new main studio, the licensee must provide the Commission with written notification of KYLA's operation from the new main studio location.

Sincerely,

for Brian J. Butler
