**ENGINEERING STATEMENT COVERING
BROADCAST MULTIPLE OWNERSHIP STUDY
CCR-WENATCHEE IV, LLC
WENATCHEE, WASHINGTON
JUNE 6, 2006**

This engineering statement and supporting tabulations and figures have been prepared on behalf of **CCR-Wenatchee IV, LLC (“CCR”)**. The purpose of this statement is to demonstrate **CCR** compliance with *Section 73.3555* of the Commission’s Rules with respect to multiple ownership of AM and FM broadcast facilities.

CCR proposes common ownership in the following five stations in the Wenatchee, WA market:

KWWX (AM)	Wenatchee, WA	1340 kHz	1 kW ND U	BL 20050608AJB
KYSN (FM)	E. Wenatchee, WA	97.7 MHz	9.3 kW	BLH 20020423AAQ
KZPH (FM)	Cashmere, WA	106.7 MHz	6 kW	BLH 19931112KC
KAAP (FM)	Rock Island, WA	99.5 MHz	5.3 kW	BLH 199970616KD
KWWW-FM	Quincy, WA	96.7 MHz	0.44 kW	BLH 19940502KC

These five stations are considered as two markets since the principal community contour for KWWW-FM has no common overlap with AM station KWWX and FM stations KAAP and KZPH.

Market 1: KWWX (AM), KYSN (FM), KZPH (FM) and KAAP (FM).

2: KYSN (FM) and KWWW-FM.

A multiple ownership analysis was prepared considering the above described radio stations under proposed common ownership or control, which stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations) in accordance with *Section 73.3555* of the FCC Rules.

RADIO MARKETS & METHODOLOGY

The radio market is defined as the area encompassed by the principal community contours (predicted or measured 5 mV/m groundwave contour for AM; predicted 3.16 mV/m contour for FM) of the stations that are both mutually overlapping and proposed to be “commonly attributable” post-transaction. The number of radio stations in this defined radio market (i.e., the numerator) will not exceed the limits set forth in *Section 73.3555(a)*. A commonly attributable station whose contour overlaps the contour of some but not all of the contours of the stations that define the radio market was not counted toward the local radio ownership limits (i.e., is not counted in the numerator). Counties in the Wenatchee market are Douglas, Chelan and Grant, Washington. None of the communities of license are located in an Arbitron defined survey area. Since the stations are in counties which are not Arbitron Metro counties, stations counted as part of the market are determined on the basis of contour overlap. *Figure 1* depicts the principal community contours for all five stations for which common ownership is proposed.

Table I lists all AM stations whose 5 mV/m daytime contour duplicates some portion of the market. The contours for these stations are plotted on *Figure 2* in gray along with the Wenatchee market as depicted on *Figure 1*.

Table I also lists all FM stations whose 70 dBu contour duplicates some portion of the market. The contours for these stations are plotted on *Figure 3* in green along with the Wenatchee market.

Distances to the AM coverage contours were predicted using the antenna patterns as identified in the Commission's CDBS database using the appropriate Ground Wave Field Strength versus Distance Graph of 47 CFR 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the methodology of 47 CFR 73.313. Terrain data was derived from the N.G.D.C. 30-second computer database for each of the FM stations, using radials spaced every 5 degrees of azimuth.

CONCLUSION

Based on the above analysis, it is believed that the proposed common ownership of stations complies with *Section 73.3555(a)(1)(iv)* of the Commission's Rules. There are 13 FM and 6 AM stations considered in this study which have principal community contours that overlap some portion of the attributable stations principal community contours. Stations in each market are:

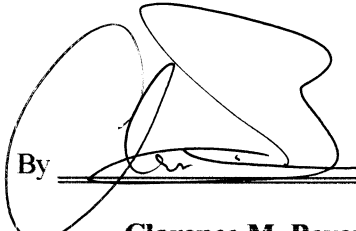

Market 1: Attributable Stations - 4 Stations (1 AM & 3 FM)
KWWX (AM), KYSN (FM), KZPH (FM) and KAAP (FM).

Non Attributable Stations in Market = 15

Market 2: Attributable Stations - 2 Stations (2 FM)
KYSN (FM) and KWWW-FM.

Non Attributable Stations in Market = 17

The foregoing was prepared on behalf of **CCR-Wenatchee IV, LLC** by Clarence M. Beverage of *Communications Technologies, Inc.*, Marlton, New Jersey, whose qualifications are a matter of record with the Federal Communications Commission. The undersigned certifies, under penalty of perjury, that the statements herein are true and correct of his own knowledge, except such statements made on information and belief, and as to these statements he believes them to be true and correct.

The map displays the Kootenai River region, with latitude and longitude coordinates ranging from 47-00 to 47-45 North and 119-45 to 120-45 West. A grid is overlaid on the map. Towns and locations marked include Telma, Merritt, Coles Corner, Winton, Plain, Chiwaukum, Leavenworth, Peshawar, Dryden, Cashmere, Monitor, Sunnyside, Venatchee, Malaga, Rock Island, Voltage, Appledale, Bonspur, Trinity, Crater, Quincy, Winchester, Naylor, Lakeview Park, Soap Lake, Ephrata, George, Low Gap, Royal City, Vantage, Boylston, Renslow, Thrall, Holmes, Kittitas, Ellensburg, Teanaway, Bristol, Virden, Liberty, Dutch Settlement, Blewett, Sunnyside, Wagnersburg, Orondo, Entiat, Winesap, Stayman, Lakeside, Sunnybank, Manson, Greens Landing, Hollywood Beach, Azwell, Howard, Mansfield, Touhey, Withrow, Farnier, Supplee, Douglas, Alstown, Palisades, Adrian, and Palisades. Signal strength contours are shown for KZPH 70 dBu, KYSN 70 dBu, KAAP 70 dBu, and KWWW-FM 70 dBu. The map also shows the Kootenai River and the border between the United States and Canada.
