Re: Input Change for FM translator K254AS Texarkana, TX

This letter has been prepared on behalf of Texarkana Radio Center Licenses, LLC. ("TRCL"), the licensee of FM translator K254AS at Texarkana, Texas (FCC Facility ID #150918). K254AS is currently listed in the FCC database as rebroadcasting the signal of AM station KCMC (FCC Facility ID #33729).

TRCL hereby notifies the Commission that K254AS is rebroadcasting the **HD3** subchannel of FM station KTFS-FM (FCC Facility ID #33541). Attached is a map exhibit which demonstrates that the translator's 60 dBu contour will be entirely contained within the 60 dBu contour of KTFS-FM.

If there are any questions about this notification, please let me know.

Regards,

Erik C. Swanson, P.E.
Consulting Engineer
