Re: MLB-Dayton IV, LLC  
WCLI-FM, Enon, Ohio  
Facility Identification Number: 10113  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed October 21, 2011, on behalf of MLB-Dayton IV, LLC ("MD4"). MD4 requests a brief, further extension of the special temporary authority ("STA") granted on June 29, 2011, to operate a temporary FM Booster.<sup>1</sup> In support of the request, MD4 states that completion of testing was not possible due to delays by the vendor in supplying necessary data transmission services.

Our review indicates that the proposed, brief test is not likely to result in interference to any other station, and that the Public Interest would be served by the proposed test operation to determine whether reception of Station WCLI-FM can be improved in the problem area.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WCLI-FM may continue to operate a temporary FM Booster with the following facilities:

Geographic coordinates:	39° 43' 26" N, 84° 12' 43" W (NAD 1927)
Channel	268 (101.5 MHz)
Effective radiated power:	0.05 kilowatt (Max-DA, H&V)
Antenna type:	3-element Yagi, directional
Antenna orientation:	135°
Antenna height:	
above ground:	10 meters
above mean sea level:	240 meters

---

<sup>1</sup> WCLI-FM is licensed for operation on Channel 268A (101.5 MHz) with effective radiated power of 6 kilowatts (H&V) and antenna height above average terrain of 100 meters.

above average terrain: -22 meters

MD4 must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 30, 2011**. No further extension of this authority is contemplated.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller".

Charles N. Miller, Engineer
