

The purpose of this Form 316 application is solely to implement a pro forma company reorganization. The reorganization will result in absolutely no change to the parties presently and ultimately controlling the subject radio stations.

Control of assignor:

Anthony S. Brandon and L. Rogers Brandon are each 50% members of AGM-Birmingham, LLC, the current licensee, and were approved to control such percentage via a long form application.

Control of proposed assignee:

With this application, the assignor proposes to assign the broadcast licenses to a limited partnership composed as follows:

As depicted, each of the 50% voting members of the assignor will control 50% of the licensee's sole general partner. Consequently, the underlying ultimate control of the radio stations will not change as a result of the proposed pro form business reorganization.
