## **ENGINEERING STATEMENT**

**In support of an**

**Application for Construction Permit**

**For a Digital Displacement to Channel 20**

**KZUP-CD Baton Rouge, LA**

**10 kW ERP 217.3 m RCAMSL**

### **PURPOSE**

MARSAND, INC. has been retained by Knight Broadcasting of Baton Rouge License Corp. (the "Licensee") Licensee of KZUP-CA analog Channel 19 of Baton Rouge, LA (the "Station"), to prepare this engineering statement in support of an Application for Construction Permit (CP) for Digital Displacement to Channel 20 after the digital transition date for full power television, February 17, 2009.

### **ELIGIBILITY FOR DISPLACEMENT**

Class A station KZUP-CA qualifies for displacement relief because the station cannot serve its existing service area on its existing channel upon transitioning to digital. If KZUP-CA were to file an application to operate a digital service on the existing Channel 19 and attempt to serve the existing service area, then KZUP-CA would exceed the maximum allowable interference level toward WMAU-TV's CP, BPEDT-20000501AHS, for digital Channel 18. In other words, KZUP-CA would be displaced if the station converted to digital on its existing channel after the February 17, 2009 deadline for full power television stations when WMAU-TV commences operating its digital facility as authorized under its CP. Accordingly, KZUP-CA qualifies for displacement.

**DISCUSSION**

The Licensee proposes to use WBRL's existing, side mount analog Channel 21 antenna which can accept Channel 20. The move to digital Channel 20 will be coordinated with WBRL as WBRL makes its "flash cut" to digital Channel 21. The antenna manufacturer's specifications can be found in the Appendix. The Licensee also proposes to modify its analog transmitter and add a new RF filter for digital service. The proposed facility is located at the existing analog site.

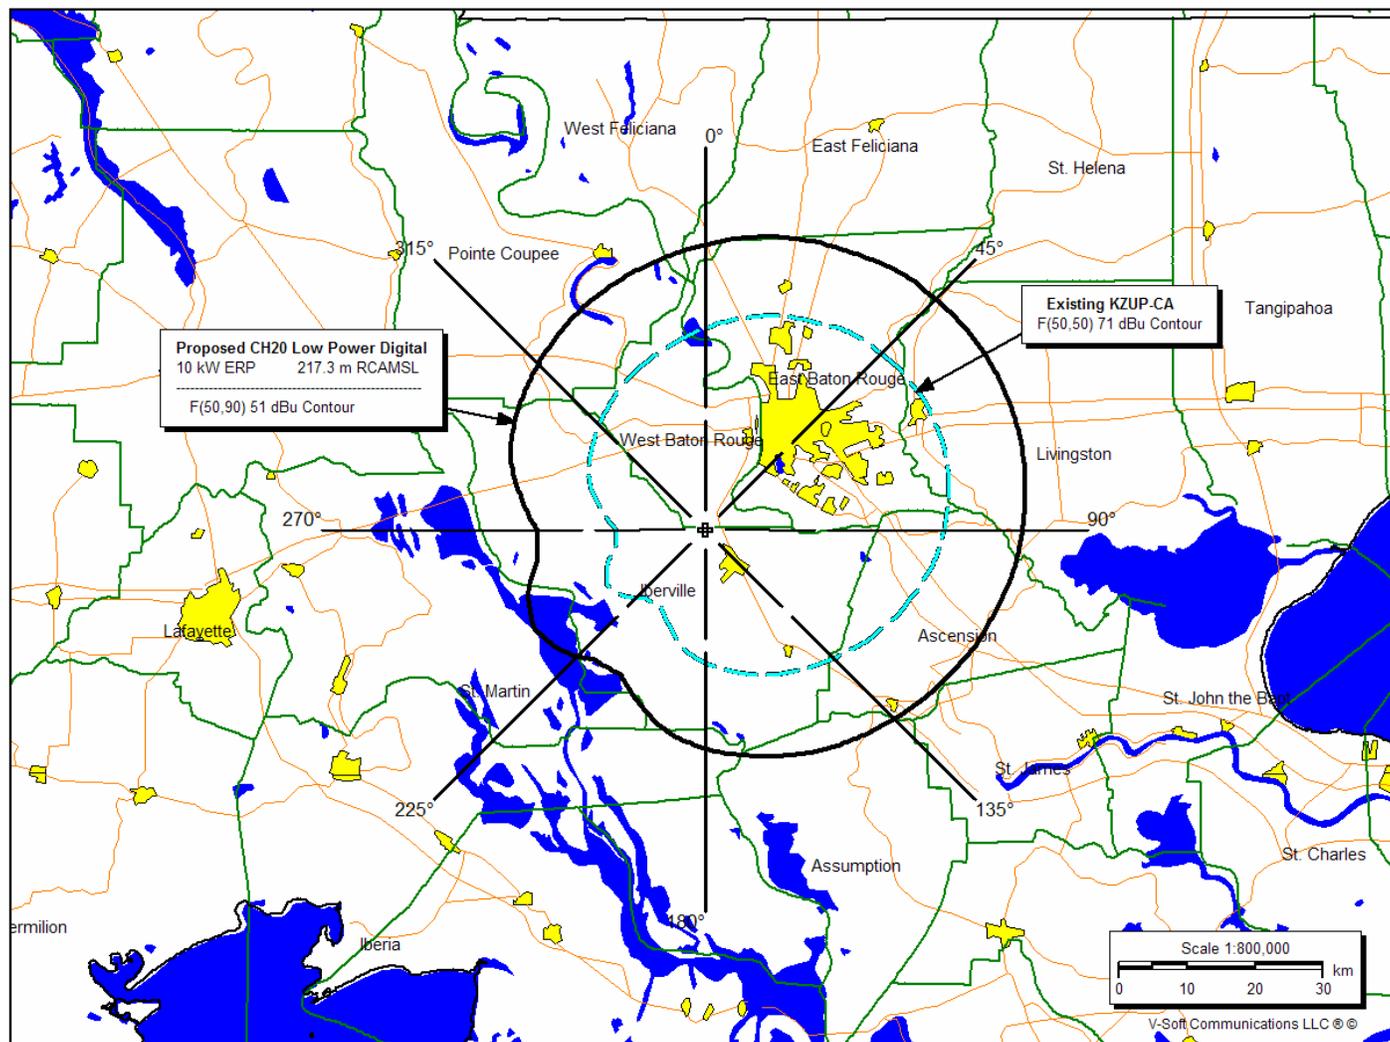

An interference study using the TV Process (digital low power version) by Meintel, Sgrignoli & Wallace (a software program which is familiar to the Commission that is written in Fortran and run on a Sun Microsystems workstation and employs the methods outlined in the OET 69 Bulletin), confirms that the proposed facility would not exceed 0.5% new interference to any other station (using the existing, post transition database). The study results are listed in the Appendix. A summary of the interference study is included below in **Table 1**.

**Stations Potentially Affected by Proposal**

Channel	Call Letters	City/State	Distance (km)	Status	Application Reference Number	Interference

**Table 1**

The calculated F(50,90) 51 dBu service grade contour would encompass the principal community, Baton Rouge, LA, entirely as shown in **Figure 1**.

**Figure 1**

The proposal is clear of any FCC monitoring stations, quiet zones, border zones and Table Mountain. It is also further than 3.2 km from the nearest AM station.

**RF Radiation Exposure Statement**

The requirements of Section 73.1307(b) of the FCC Rules regarding human exposure to radio frequency (RF) energy are met under this instant application for the post-transition digital television facility proposed herein.

The proposed facility utilizes the existing analog top mount antenna located on an existing, multi-use tower structure (ASR 1022810) located near Addis, LA. The site is restricted access. The station agrees to maintain full compliance with the safety precautions to workers on the tower (controlled) and the general public (uncontrolled) by reducing or removing radiated power during the time of construction or maintenance on or near the antenna. The station also certifies that it, in coordination with other users of the site, will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from Radiofrequency Electromagnetic exposure in excess of FCC guidelines.

**Table 2** shows the calculations of RF level 2m above ground level for the General Public / Uncontrolled (GP/U) would not exceed 5% of the Maximum Permissible Exposure (MPE) limit. The calculations are shown in the Appendix. The proposed facility is therefore a negligible contributor to the RF environment at all ground level locations and is excluded from the routine environmental evaluation pursuant to Section 1.1307(b) of the FCC Rules.

Call Letters	Channel / Frequency	Distance from RCAGL to 2 m AGL	Worst Case Downward Radiation (Relative Field)	Calculated Power Density (uW/cm <sup>2</sup> )	GP/U MPE (uW/cm <sup>2</sup> )	Percentage of GP/U MPE
KZUP-CD	CH20 506-512 MHz	211.4 m	0.20	0.30	300	0.09%

**Table 2**

**CONCLUSION**

It is respectfully requested that the Commission grant this request for CP for the proposed transmission facility as indicated in the Tech Box of the accompanying Application Form 301-CA.

**DECLARATION**

Matthew A. Sanderford, Jr., P.E., declares and states that he is a graduate Electrical Engineer with a Bachelor of Science Degree in Electrical Engineering from the University of Texas at El Paso, a Licensed Professional Engineer in the State of Texas, and his qualifications are known to the Federal Communications Commission, and that he is President of MARSAND, INC., a Registered Professional Engineering firm in the State of Texas, and that firm has been retained by the Licensee, to perform the engineering support as contained in this report.

All facts contained herein are true of his own knowledge except where stated to be on information or belief provided by the Licensee, and as to those facts, he believes them to be true.

\_\_\_\_\_

I declare under penalty of perjury that the foregoing is true and correct.

\_\_\_\_\_

Matthew A. Sanderford, Jr., P.E.

President - MARSAND, INC.

Contour Overlap to Proposed Station

Station

KZUP-CA 19 BATON ROUGE LA BLTTA20030528AJA

Station inside contour of Digital LPTV station

KZUP-CD 20 BATON ROUGE LA USERRECORD01

Station

WMPN-TV 20 JACKSON MS BPEDT20000113AAH causes

Matthew A. Sanderford, Jr., P.E.

Contour overlap to Digital LPTV station

KZUP-CD 20 BATON ROUGE LA USERRECORD01

Station

WBRL-CA 21 BATON ROUGE LA BLTTA20030530ANC

Station inside contour of Digital LPTV station

KZUP-CD 20 BATON ROUGE LA USERRECORD01

Contour Overlap Evaluation to Proposed Station Complete

Proposed facility OK to FCC Monitoring Stations

Proposed facility OK toward West Virginia quiet zone

Proposed facility OK toward Table Mountain

Proposed facility is beyond the Canadian coordination distance

Proposed facility is beyond the Mexican coordination distance

Proposed station is OK toward AM broadcast stations

**NOTE: In addition to the information called for in this section, an explanatory exhibit providing full particulars must be submitted for each question for which a "No" response is provided.**

**Section II - Legal**

1. <b>Certification.</b> Licensee certifies that it has answered each question in this application based on its review of the application instructions and worksheets. Licensee further certifies that where it has made an affirmative certification below, this certification constitutes its representation that the application satisfies each of the pertinent standards and criteria set forth in the application instructions and worksheets.	<input checked="" type="radio"/> Yes <input type="radio"/> No
2. <b>Continued Eligibility.</b> License certifies that its station does, and will continue to broadcast: (a) a minimum of 18 hours per day; and (b) an average of at least 3 hours per week of programming each quarter produced within the market area served by the station, or the market area served by a group of commonly controlled low-power or Class A stations that carry common local programming produced within the market area served by such groups.	<input checked="" type="radio"/> Yes <input type="radio"/> No See Explanation in [Exhibit 3]
3. <b>Local Public Notice.</b> (For major change Applicants Only) Applicant certifies that it will comply with the public notice requirements of 47 C.F.R. Section 73.3580.	<input type="radio"/> Yes <input type="radio"/> No
4. <b>Rebroadcast Certification.</b> (For Applicants proposing translator rebroadcasts that are not the licensee of the primary station) Applicant certifies that written authority has been obtained from the licensee of the station whose programs are to be retransmitted.	<input type="radio"/> Yes <input type="radio"/> No
5. <b>Auction Authorization.</b> If the application is being submitted to obtain a construction permit for which the applicant was the winning bidder in an auction, then the applicant certifies, pursuant to 47 C.F.R. Section 73.5005(a), that it has attached an exhibit containing the information required by 47 C.F.R. Sections 1.2107(d), 1.2110(i), 1.2112(a) and 1.2112(b), if applicable.  <b>An exhibit is required unless this question is inapplicable.</b>	<input type="radio"/> Yes <input type="radio"/> No <input checked="" type="radio"/> N/A  [Exhibit 4]
6. <b>Anti-Drug Abuse Act Certification.</b> Applicant certifies that neither applicant nor any party to the application is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.	<input checked="" type="radio"/> Yes <input type="radio"/> No
I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith. I acknowledge that all certifications and attached Exhibits are considered material representations. I hereby waive any claim to the use of any particular frequency as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and request an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934, as amended.)

**SECTION III PREPARER'S CERTIFICATION**

I certify that I have prepared Section III (Engineering Data) on behalf of the applicant, and that after such preparation, I have examined and found it to be accurate and true to the best of my knowledge and belief.

Name MATTHEW A. SANDERFORD, JR., P.E.	Relationship to Applicant (e.g., Consulting Engineer) CONSULTING ENGINEER	
Signature	Date 8/13/2008	
Mailing Address P.O. BOX 845 6100 I-35W		
City	State or Country (if foreign address)	Zip Code

ALVARADO	TX	76009-0485
Telephone Number (include area code) 8177835566	E-Mail Address (if available) TVCOWBOY@MARSAND.COM	

WILLFUL FALSE STATEMENTS ON THIS FORM ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. CODE, TITLE 18, SECTION 1001), AND/OR REVOCATION OF ANY STATION LICENSE OR CONSTRUCTION PERMIT (U.S. CODE, TITLE 47, SECTION 312(a)(1)), AND/OR FORFEITURE (U.S. CODE, TITLE 47, SECTION 503).

**SECTION III - Engineering (Digital)**

**TECHNICAL SPECIFICATIONS**  
Ensure that the specifications below are accurate. All items must be completed. The response "on file" is not acceptable.

**NOTE:** In addition to the information called for in this section, an explanatory exhibit providing full particulars must be submitted for each question for which a "No" response is provided.

**TECH BOX**

1. Channel Number:  
20

2. Antenna Location Coordinates: (NAD 27)  
Latitude:  
Degrees 30 Minutes 19 Seconds 34  North  South  
Longitude:  
Degrees 91 Minutes 16 Seconds 36  West  East

3. Antenna Structure Registration Number: 1022810  
 Not Applicable [Exhibit 8]  Notification filed with FAA

4. Antenna Location Site Elevation Above Mean Sea Level: 3.9 meters

5. Overall Tower Height Above Ground Level: 528.8 meters

6. Height of Radiation Center Above Ground Level: 213.4 meters

7. Maximum Effective Radiated Power (ERP): 10 kW

8. Transmitter Output Power: 0.32 kW

9. a. Transmitting Antenna:  
Before selecting Directional "Off-the-Shelf", refer to "Search for Antenna Information" under [CDBS Public Access](http://fjallfoss.fcc.gov/prod/cdbspubacc/prod/cdbsp_a.htm) (http://fjallfoss.fcc.gov/prod/cdbspubacc/prod/cdbsp\_a.htm). Make sure that the Standard Pattern is marked Yes and that the relative field values shown match your values. Enter the Manufacturer (Make) and Model exactly as displayed in the Antenna Search.  
 Nondirectional  Directional "Off-the-shelf"  Directional composite  
Manufacturer AND Model ALP32L3-HSNR-21

[Relative Field Polar Plot](#)

**NOTE: In addition to the information called for in this section, an explanatory exhibit providing full particulars must be submitted for each question for which a "No" response is provided.**

10. **Out-of-channel Emission Mask:**  Simple  Stringent

**CERTIFICATION**

11. **Interference.** The proposed facility complies with all of the following applicable rule sections. 47.C.F.R Sections 73.6016, 73.6017, 73.6018, 73.6019, 73.6020, 73.6027 and 74.794 (b).  Yes  No  
See Explanation in [Exhibit 9]

12. **Environmental Protection Act.** The proposed facility is excluded from environmental processing under 47. C.F.R. Section 1.1306 (i.e., The facility will not have a significant environmental impact and complies with the maximum permissible radiofrequency electromagnetic exposure limits for controlled and uncontrolled environments). Unless the applicant can determine RF compliance, an **Exhibit is required.**  Yes  No  
See Explanation in [Exhibit 10]  
  
By checking "Yes" above, the applicant also certifies that it, in coordination with other users of the site, will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic exposure in excess of FCC guidelines.

13. **Channels 52-59.** If the proposed channel is within channels 52-59, the applicant certifies compliance with the following requirements, as applicable:  
  
 The applicant is applying for a digital companion channel for which no suitable channel from channel 2-51 is available.  
  
 Pursuant to Section 74.786(d), the applicant has notified, within 30 days of filing this application, all commercial wireless licenses of the spectrum comprising the proposed TV channel and the first adjacent channels thereto, for which the proposed digital LPTV or TV translator antenna site lies inside the licensed geographic boundaries of the wireless licensees or within 75 miles and 50 miles, respectively, of the geographic boundaries of co-channel and adjacent-channel wireless licensees.
