Mr. Michael Bové
Director of Engineering
Family Life Broadcasting, Inc.
7355 N. Oracle Road
Tucson, AZ 85704

Dear Mr. Bové

On October 1, 2014, we observed the position of the WJTF, Panama City, Florida Shively 6810-6DA antenna installation. The directional antenna was oriented at the azimuth specified in the antenna manufacturer's proof-of-performance and was verified by electronic measuring. As of the date of the field work, the azimuth-orientation of the antenna boom was 170 degrees with respect to Truth North, as per construction plans, provided by client. The accuracy of this study is within 0.046111+/- degrees.

Respectfully submitted,

Mark C. Dragon, FL LS No. 4842
