Facility ID No. 132417  
File No. BMPL-20070910ABC

Dear Applicant:

This letter refers to the above-captioned application for a minor modification to a construction permit.

An engineering study has revealed that the proposed new channel at the transmitter site specified in the application fails to meet the minimum spacing requirements of Section 73.807 of the Commission's Rules<sup>1</sup> in relation to the first-adjacent channel 25.2C2 allotment at Columbia, MO. The required separation to the class C2 allotment is 80 kilometers, whereas the separation proposed is 4.8 kilometers.

Accordingly, in light of the above, application BMPL-20070910ABC is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to Section 0.283 of the Commission's Rules.<sup>2</sup>

Sincerely,

James D. Bradshaw  
Deputy Chief
