

## ENGINEERING STATEMENT

June 7, 2018

As required under the special conditions of the construction permit for W237EX an FM translator for AM radio station KGHS in International Falls Minnesota measurement of the resistance of the KGHS AM tower was done and it was found to be unchanged from the 65.5 ohms listed on the current station authorization dated June 9, 1992.

Measurement was performed by James R Offerdahl, Chief Engineer of Offerdahl Broadcast Service, Inc.

Offerdahl Broadcast Service, Inc is a contract engineering firm under contract to R&J Broadcasting, Inc, licensee of KGHS.

A handwritten signature in cursive script that reads "James R Offerdahl".
