In re: BPCDT-20080619AFN  
WGN-TV, Chicago, IL  
Facility ID# 72115

Dear Applicant:

This is in reference to the above-captioned application for a construction permit for your digital television (DTV) station on channel 19, at Chicago, IL.

We have completed a technical review of your application and conclude that the application cannot be granted because it is in violation of section 73.622 of the Commission's Rules. Specifically, your proposal exceeds the maximum permissible limits on DTV power antenna height set forth in section 73.622(f)(8).

Accordingly, you must within 30 days of the date of this letter, amend your application so that it complies with section 73.622 of the Commission's Rules. If you propose to show compliance by showing that your proposal provides the same geographic coverage area as the largest station within your market, you must submit a detailed showing including all the data necessary to allow a comparison of these stations. This showing should include but not limited to a showing of the coverage contours for your proposal and the largest station within your market and the calculated area of each contour. You are cautioned that your failure to comply with the requirements of this letter within the time specified herein may result in the dismissal of your application pursuant to section 73.3568(a) of the Commission's Rules.

Sincerely,

Kevin R. Harding  
Associate Chief  
Video Division  
Media Bureau
