*New projects accepted only in eastern Maryland & central Florida*

This affidavit is to certify that the undersigned was personally on site during the final assembly and alignment of the custom RYMSA antenna designed and manufactured for WBAR-FM, Lake Luzerne, NY, to satisfy this construction permit. Said antenna has been assembled and installed per the instruction book and drawings provided by the manufacturer.

The undersigned is a second generation broadcast engineer, has worked productively in the broadcast engineering field for over forty years and is a member and senior member of the AFCCE and the SBE respectively. He has been a licensed FCC commercial and amateur operator for over 40 years, a licensed electric contractor for over 30 years, a licensed professional engineer for nearly 30 years, a SBE certified professional broadcast engineer with directional AM certification since 1977 and consulting engineer to Capital Media for nearly a decade.

Among many professional positions the undersigned has been a professional engineer with CBS, Director of Engineer of WTIC-TV in Hartford and Director of Engineering of WSHS-TV in Boston.

Charles S. Fitch, P.E.

Consulting Engineer to Capital Media
