KMAJ-FM RADIO STATION
CH 299C1 - 107.7 MHZ - 92.0 KW
SHAWNEE, KANSAS
March 2006

TECHNICAL STATEMENT

This Technical Statement and attached exhibits were prepared on behalf of Kansas City Trust, LLC, Trustee ("KCT"), proposed assignee of KMAJ-FM, Channel 299C, Topeka, Kansas. There is also an outstanding permit (BPH-20040406ACG) which implemented a change in community of license for the station to Channel 299C1 at Shawnee, Kansas. KCT proposes to modify the outstanding permit by making minor changes in the facilities of KMAJ-FM to locate the facility at a site other than that indicated in the outstanding permit. This application is being submitted pursuant to §73.3517(a) of the Commission's rules.

KCT proposes to locate the antenna system for KMAJ-FM on a previously approved tower. As such, the Federal Aviation Administration ("FAA") was not apprised of this proposal. The tower has been registered with the FCC and assigned Antenna Structure Registration Number 1232918. All other necessary documentation used to certify the technical portion of FCC Form 301 has been forwarded to KCT and is available to the Commission upon request.¹

1) The environmental analysis was for radio frequency radiation compliance only. The applicant has or will address the remaining issues.
