Re: Radio License Holding CBC, LLC (RLH)  
WARM(AM), Scranton, Pennsylvania  
Facility Identification Number: 70504  
Special Temporary Authority(STA)  
BESTA-2014 0107APN

Dear Mr. Lipp:

This is in reference to the request filed on January 7, 2014. RLH requests an extension of the STA granted on July 11, 2013, to operate station WARM(AM) with parameters at variance from license values and/or reduced power while maintaining monitor points within license limits due to lightning damage to the antenna system.<sup>1</sup> In support of the request, RLH states that more problems were discovered during the past six months which will require further consideration and additional repairs.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for STA IS HEREBY GRANTED. Station WARM(AM) may operate with parameters at variance from licensed values and/or reduced power while

maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. RLH must notify the Commission when licensed operation is restored.<sup>2</sup> RLH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **July 30, 2014**.
