

Technical Exhibit

KTCL(FM) Facility ID No: 68684

Jacor Broadcasting of Colorado, Inc.

July 20, 2004

This statement and the attached figures were prepared on behalf of Jacor Broadcasting of Colorado, Inc. (JBCI) a licensee subsidiary of Clear Channel Communications, Inc. CCBL proposes to modify the facilities of KTCL(FM). A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership or time brokerage:

Table 1: Proposed Commonly Owned or Controlled Stations Studied

Call Sign	Facility_id	City	State
KOA	29738	DENVER	CO
KKZN	29740	THORNTON	CO
KHOW	48962	DENVER	CO
KRFX	29731	DENVER	CO
KBPI	29739	DENVER	CO
KBCO-FM	48966	BOULDER	CO
KTCL- PRP	68684	WHEAT RIDGE	CO
KFMD	48967	DENVER	CO

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), an ownership study has been prepared in accordance with the Federal Communications Commission's multiple ownership rules¹.

CCBL does not have an attributable interest in any other station with a principal community contour that overlaps or intersects the existing facility of KTCL(FM).

Radio Markets

The "radio market" applicable to common ownership of the subject stations is defined as the area encompassed by the mutually overlapping principal community contours of the proposed commonly owned stations. These mutually overlapping contours form one "radio market," as shown in *Figure 1*, for analysis under the Commission's rules. Please note that KBPI, KFMD, and KRFX have outstanding Construction Permit applications to operate from the same antenna or near-by antennas as the location proposed for KTCL. This analysis assumes grant and licensing for all these facilities; however, even if such facilities were not implemented, the make-up of the defined "radio market"

¹ See 47 C.F.R. § 73.3555.

analyzed here would not be altered and there would continue to be at least 45 stations that overlap or intersect with the "radio market."

The radio market for study (3 AM and 5 FM) is defined in Table 1 and Figure 1.

Table 2

Call Sign	Facility_id	City	State
KOA	29738	DENVER	CO
KKZN	29740	THORNTON	CO
KHOW	48962	DENVER	CO
KRFX	29731	DENVER	CO
KBPI	29739	DENVER	CO
KBCO-FM	48966	BOULDER	CO
KTCL- PRP	68684	WHEAT RIDGE	CO
KFMD	48967	DENVER	CO

Count of Stations in Defined Markets

The number of radio stations in a "radio market" is determined by counting the operating, commercial stations having principal community contours that overlap or intersect the principal community contours that define the radio market, plus the subject commonly owned or controlled stations.

In the Radio Market studied herein, there are over 45 radio stations, not including the subject co-owned stations, that overlap or intersect with the defined "radio market." *Table 3 and Figure 2* is the tabulation of the radio stations identified in the market.

Only known licensed, operating commercial stations were included in this tabulation. Distances to contours for AM stations were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 C.F.R. § 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 C.F.R. § 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials spaced every 45 degrees of azimuth.

Based on the above, it is concluded that the proposed modifications comply with § 73.3555(a) of the FCC Rules.

Sincerely,

Troy Langham
FCC Engineering Specialist
Jacor Broadcasting of Colorado, Inc.
