PMA is a wholly-owned subsidiary of Salem Communications Holding Corporation (“SCHC”). SCHC is also the sole stockholder of the proposed assignee, Caron Broadcasting, Inc., an Ohio corporation (“Caron”). SCHC is a wholly-owned subsidiary of Salem Media Group, Inc. (“SMG”). Caron is currently an FCC licensee of other radio stations.

SMG desires to simplify the current corporate structure of its subsidiary entities. In this regard, SMG plans to merge PMA, as well as four other FCC licensees (which are the subject of separate Form 316 applications) into Caron, and transfer all of PMA’s assets (including the Licenses) to Caron. As a result of this transaction, PMA will cease to exist. Caron will be the holder of the Licenses. This Form 316 application seeks permission to assign the Licenses from PMA to Caron in connection with the merger of PMA into Caron.

Immediately following the merger of these licensees into Caron, SCHC will be merged into Caron. That merger is the subject of separate 316 transfer of control applications by those entities affected by that merger.
