RE: Channel 8 letter

Mr. Novak,

KPVI, Channel 8, hereby grants The Educational Media Foundation (EMF) permission to process a FM Translator amendment application on Channel 210 at 250 watts in Pocatello, ID.

If interference should arise due to the operation of EMF's FM Translator on 89.9 MHz, EMF agrees to immediately cease broadcasting until a solution to the interference can be found. KPVI will be the sole determiner if interference occurs, due to the operation of this translator. EMF will also supply TVI filters to listeners whose signal may be affected by the translator at no cost to KPVI viewers.

Sincerely,

  
~~Frank Haynes~~
