I am awaiting a final decision by the FCC for tolling of the construction permits for WXNH-AM, Jaffrey, New Hampshire and WZNH-AM, Fitzwilliam Depot, New Hampshire. Both Jaffrey and Fitzwilliam Depot do not have local radio broadcast service at this time.

I do not have any other ownership interest or any type of contract with any other radio station.

WXNH-AM, Jaffrey, New Hampshire and WZNH-AM, Fitzwilliam Depot, New Hampshire are included in the Boston-Manchester Designated Market Area (DMA), rated as the 7th largest US market with a population of over 6.2 million persons.

The following lists the AM and FM radio broadcast signals that cover Jaffrey, New Hampshire and Fitzwilliam Depot, New Hampshire:

The assignment of WGAW-AM license complies with the Commission's multiple ownership rules and cross-ownership rules. Since the application involves only three AM radio stations (WGAW-AM, Gardner, Massachusetts and the proposed, currently not on the air, WXNH-AM, Jaffrey, New Hampshire and WZNH-AM, Fitzwilliam Depot, New Hampshire), the transfer meets the restrictions based on the sliding scale that varies by the size of the market in either section (1), section (2), section (3), or section (4)

Local Radio Ownership. The rule imposes restrictions based on a sliding scale that varies by the size of the market: (1) in a radio market with 45 or more stations, an entity may own up to eight radio stations, no more than five of which may be in the same service (AM or FM); (2) in a radio market with between 30 and 44 radio stations, an entity may own up to seven radio stations, no more than four of which may be in the same service; (3) in a radio market hosting between 15 and 29 radio

stations, an entity may own up to six radio stations, no more than four of which may be in the same service; and (4) in a radio market with 14 or fewer radio stations, an entity may own up to five radio stations, no more than three of which may be in the same service, as long as the entity does not own more than 50 percent of all radio stations in that market.
