

[Exhibit 13]

Channel 6 TV Non-Interference Compliance

Regarding Facility id 91707

Channel 213

Because this application is made on channel 213, 47 C.F.R. § 74.1205(a) requires that a showing be provided proving compliance with the other provisions of § 74.1205 if the proposed translator is within 135 km of any channel 6 television station.

Page 2 of this exhibit shows all stations within 135 km. The last column in that tabulation shows the area of overlap in square kilometers of the 75 dBμ F(50,10) interfering contour with any 47 dBμ F(50,50) protected contour. Note that there are no stations with any prohibited overlap, thus signifying that this application is in full compliance with the provisions of § 74.1205.

Note that there is prohibitive overlap with TV6 station KIDY, San Angelo, TX (FIN: 58560), licensed to Sage Broadcasting Corporation. Applicant certifies that it has received written permission to operate within the protected 47 dBμ F(50,50) contour of KIDY on channel 213.

Page 3 of this exhibit is the letter from Sage Broadcasting granting applicant permission to rebroadcast the proposed transmit site on channel 213.
