Re: **EXPEDITED ATTENTION REQUESTED**

Live Sports Radio, LLC
FRN: 0017-5077-16
Request for Special Temporary Authority to
Operate a Low Power Television Facility
PGA Championship, Johns Creek, Georgia

Dear Sir/Madam:

Live Sports Radio, LLC, ("LSR"), via undersigned counsel, hereby requests special temporary authority ("STA") to operate a low power television facility within the Analog Channel 5 band at the PGA Championship, Johns Creek, Georgia, from August 8, 2011, to August 14, 2011.

This STA is requested to allow LSR to provide continuous live coverage of the PGA Championship Golf Tournament to the spectators who otherwise would not be able to hear coverage. The PGA has sanctioned LSR to provide continuous live coverage of the event, and this service will allow the attendees to hear play-by-play coverage.

Without this service, no on-site live audio coverage will be available to the spectators. In addition, the service will provide a significant public interest benefit – it is the only way to communicate with attendees in the event of severe weather, a terrorist attack, or other emergency and provide the attendees with potentially life-saving instructions. There is no other communication system available to spectators that is either feasible or practical for this purpose.

Attached is an Engineering Statement describing the proposed operation, and confirming that the proposed operation within Analog Channel 5 will not cause objectionable interference to any existing television or low power television operators. Further, in the event that a mounting device (i.e., pipe) is installed at the proposed location, it will be less than six meters above ground.

FLETCHER, HEALD & HILDRETH, P.L.C.

US BANK/FCC MAY 25 2011

The undersigned has been authorized to state that no party to the applicant is subject to a denial of federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.

Also enclosed is the Fee Receipt issued by the FCC's Fee Filer System indicating that the filing fee of \$170.00 (Fee Code MGL) has been paid online. In addition, a self-addressed Federal Express envelope and an extra copy of this request is enclosed, and it is respectfully requested that the Commission date-stamp and return the extra copy to undersigned counsel in the envelope provided.

Please contact undersigned counsel should you have any questions regarding this request.

Respectfully submitted,

Lee G. Petro

Counsel for Live Sports Radio, LLC.

10. Maximum Effective Radiated Power (ERP) Towards Radio Horizon:	<u>0.03</u> kW										
11. Maximum ERP in any Horizontal and Vertical Angle:	<u>0.03</u> kW										

Based on a study of all authorized stations in the Commission's CDBS database, it was determined that this channel would be best suited for the proposed operation. The proposed facility either complies with the Commission's LPTV contour overlap protection requirements or causes no additional population interference in excess of the Commission's limit when studied per OET Bulletin No. 69. Nevertheless, the applicant recognizes the secondary status provided under STA and will cease operation or reduce power as necessary in the event actual interference occurs. According to information provided by the applicant, no portion of the antenna will extend above permanent buildings or structures.

* - Note: See Exhibit A for specific details regarding the proposed operation.

NOTE: In addition to the information called for in this section, an explanatory exhibit providing full particulars must be submitted for each question for which a "No" response is provided.

CERTIFICATION

13. **Interference.** The proposed facility complies with all of the following applicable rule sections. ☒ Yes ☐ No See Explanation in Exhibit No.
Check all those that apply.

TV broadcast analog system protection.

- a. ☐ 47 C.F.R. Section 74.705. (Intended for Post-Transition Operation.)

Digital TV station protection.

- b. ☒ 47 C.F.R. Section 74.706.

Low Power TV and TV translator station protection.

- c. ☒ 47 C.F.R. Section 74.707.

14. **Environmental Protection Act.** The proposed facility is excluded from environmental processing under 47 C.F.R. Section 1.1306 (*i.e.*, the facility will not have a significant environmental impact and complies with the maximum permissible radiofrequency electromagnetic exposure limits for controlled and uncontrolled environments). Unless the applicant can determine RF compliance. An Exhibit is required. ☒ Yes ☐ No See Explanation in Exhibit No.
Exhibit No.

By checking "Yes" above, the applicant also certifies that it, in coordination with other users of the site, will reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic exposure in excess of FCC guidelines.

PREPARER'S CERTIFICATION ON PAGE 6 MUST BE COMPLETED AND SIGNED.

SECTION III PREPARER'S CERTIFICATION

I certify that I have prepared Section III (Engineering Data) on behalf of the applicant, and that after such preparation, I have examined and found it to be accurate and true to the best of my knowledge and belief.

WILLFUL FALSE STATEMENTS ON THIS FORM ARE PUNISHABLE BY FINE AND/OR IMPRISONMENT (U.S. CODE, TITLE 18, SECTION 1001),
AND/OR REVOCATION OF ANY STATION LICENSE OR CONSTRUCTION PERMIT (U.S. CODE, TITLE 47, SECTION 312(a)(1)),
AND/OR FORFEITURE (U.S. CODE, TITLE 47, SECTION 503)

EXHIBIT A

Live Sports Radio, Inc., will be utilizing a video transmitter as an exciter feeding the power amplifier portion of a modified PTEK TV band audio FM transmitter followed by a custom designed Low Pass Filter. The video aspect of the proposed operation will consist of rotating video screens containing information relating to the event, and instructions for operating the Live Sports Radio-provided device.

Equipment List:

Video Transmitter -

1. LSR- designed bandwidth limited Monochrome video generator.
2. Blonder-Tongue RF modulator ACM-806.
3. Power amplifier section of a PTEK FM audio transmitter.
4. Integrated 3-Section Low Pass Filter for harmonic reduction, internal to the PTEK FM audio transmitter.
5. Vertical flexible whip antenna AD-44 design omni-directional.

Audio Transmitter -

1. PTEK FM audio transmitter.
2. Vertical flexible whip antenna AD-44 design omni-directional.

It is expected that the video and audio transmitters will be operating at different locations on the premises of the event. Therefore, the coordinates provided in Section III, Question 5 of the Tech Box, to which this exhibit is attached, is an estimated location for the transmitters. At no time will the actual location of the transmitters be located off-premises and neither the audio or video signal is expected to extend beyond the event location.
