Dear Applicant:

This refers to your attorney's letter dated January 13, 2015, for special temporary authority (STA) to operate at reduced effective radiated power (ERP). You indicate that due to transmission line failure, the station is transmitting with its licensed antenna system at reduced power, using a portion of existing transmission line that was previously used in connection with a former analog TV station. You state that reduced power operations will continue to be necessary while the applicant is trying to replace the equipment and restore full power operation.

In light of the above, special temporary authority pursuant to Sections 73.1560(d) and 73.1635 of the Commission's Rules until July 28, 2015 IS GRANTED.

We wish to point out that an extension of this request must include detailed reasons and a description of efforts being taken to return the station to full power operation.

Sincerely,

A handwritten signature in blue ink that reads "Kevin R. Harding". The signature is stylized with a large, looping "K" and "H".
