

**ESTABLISHED COMMUNITY PRESENCE**

**Existence of Applicant**

The applicant, a non-profit educational organization, is a Florida non-profit corporation which was incorporated on August 14, 2006. Its headquarters is located at 3308 East 15<sup>th</sup> Street, Panama City, Florida, at approximate NAD27 coordinates 30° 10' 31" north latitude and 85° 36' 47" west longitude. The proposed transmitter and antenna location for our proposed low power FM station would be on St. Dominic's property, 0.052 mile from our headquarters, at NAD27 coordinates 30° 10' 32.5" north latitude and 85° 36' 49.6" west longitude.

As we understand Section 73.853 of the FCC's Rules and Regulations, since the applicant's headquarters have been located within 20 miles of the proposed antenna location for more than the past two years, the applicant qualifies as an "established local applicant" for purposes of the so-called point system.

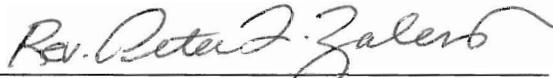

**Localism**

As noted above, our organization has been in existence in Panama City, Florida since August 14, 2006 and has since that time been headquartered at 3308 East 15<sup>th</sup> Street, Panama City, Florida. This location is within 20 miles of the proposed transmitter and antenna site, which is in fact on St. Dominic's property.

Therefore, this application qualifies as an “established local applicant” pursuant to Section 73.853(b) of the FCC’s Rules.

It is hereby stated under penalty of perjury that the foregoing statements are true and correct.

DATED this 7 day of November, 2013.
