Re: CC Licenses, LLC (CCL)
WENE(AM), Endicott, New York
Facility Identification Number : 19625
Special Temporary Authorization (STA)
BESTA- 20170110AAR

Dear Mr. Davis:

This is in reference to the request filed on January 10, 2017. CCL requests an extension of the STA granted on August 14, 2014, to operate with 0.64 kW ND at night pending the filing of the required FCC Form 302 application to update all operating parameters.¹ In support of the request, CLL states that the nighttime pattern is now in substantial adjustment, and a method of moment proof is being prepared now to submit with the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

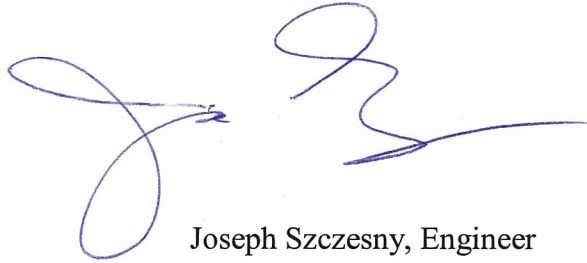

Accordingly, the request for extension of STA IS HEREBY GRANTED, and CCL may continue to operate with nighttime parameters at variance and reduced power if needed to stay within licensed tolerances, or with a maximum of 0.64 kW ND at night to protect Canadian station CKYC, 1430 kHz, Toronto, Ontario, Canada (with no change to the licensed daytime 5

¹ WENE(AM) is licensed for operation on 1430 kHz with a power of 5 kW ND day and DA night.

kW operation). It will be necessary to further reduce power or cease operation if complaints of interference are received. CCL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. One final STA extension must be filed on the expiration date shown below if the 302 application remains pending before the Commission on the expiration date shown below.

This authority expires on **July 27, 2017**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop followed by a series of smaller loops and a long horizontal stroke.
