---

This technical statement has been prepared on behalf of Forever Broadcasting, LLC ("Applicant") and is in support of an application for assignment for the above referenced radio stations. This statement and attachments will show that the radio stations in the assignment application may be commonly owned because the proposed ownership meets 47 C. F. R. Section 73.3555 of the Commission's Rules under the contour overlap Rules as the market is not an FCC Geographically Defined Market.

The Applicant proposes in its assignment application to own the following AM and two FM stations in conjunction with the stations currently owned.

WNTJ (AM), Johnstown, PA<sup>1</sup>  
WCCL (FM), Central City, PA  
WLKH (FM), Somerset, PA

The Applicant is currently licensee of the following stations:

WNTW (AM), Somerset, PA  
WRKW (FM), Ebensburg, PA  
WFGI-FM, Johnstown, PA  
WKYE (FM), Johnstown, PA  
WJHT (FM), Johnstown, PA

---

<sup>1</sup> On April 28, 2008 the Applicant began a local marketing agreement with 2510 Licenses, LLC.

#### Attachment A, Stations Defining the Markets:

Attachment A shows the 70 dbu FM contours and 5 mV/m AM contours of the stations proposed for common ownership and their transmitter site locations. The maximum concentration of stations occurs in Market 1 consisting of 5 FM and 2 AM stations. All other newly created markets are of lesser concentration of stations.

Attachment A1 is a close up Attachment A for better definition of the markets.

Attachment A2 is a listing of the Commission's CDBS database records for the stations defining the markets shown in Attachment A.

#### Attachment B, Stations in Markets 1 and 2:

Market 1 has the maximum station concentration of 5 FM and 2 AM stations. It consists of stations WFGI-FM, WRKW (FM), WKYE (FM), WJHT (FM), WCCL (FM), WNTW (AM), and WNTJ (AM).

Market 2 has a market concentration of 5 FM and 1 AM stations. It consists of stations WFGI-FM, WRKW (FM), WKYE (FM), WCCL (FM), WLKH (FM) and WNTW (AM).

Attachment B shows the 70 dbu and 5 mV/m contours of the stations proposed for common ownership as well as the other non-attributable stations with contours that overlap the stations in Markets 1 and 2 that have transmitter sites within the 92 kilometers.

Attachment B1 consists of the Commission's CDBS database records for all the non-attributable stations with overlapping contours to the stations in Markets 1 and 2 as seen in Attachment B.

Compliance: An area search has revealed that 22 AM 5 mV/m and 21 FM 70 dbu contours overlap with the stations contours in Markets 1 and 2 bringing 43 non-attributable stations to the markets. With the addition of the stations defining the markets there are 50 stations in Market 1 and 49 stations in Market 2. Therefore, common ownership of the stations proposed herein will meet the Commission's Rules for multiple ownership since the Applicant is proposing a maximum market concentration of 5 FM and 2 AM stations in multiple markets. All other markets are of lesser station concentration. According to the Commission's Rules, in a market of over 45 stations the Applicant can own up to 8 stations with up to 5 in one service.

#### Conclusion:

The Applicant proposes common ownership of stations under the Commission's Contour Overlap Rules since the market is not an FCC Geographically Defined Market. The Applicant proposes ownership of 6 FM and 2 AM stations in varying market configurations with contour overlaps that produce a maximum concentration of 5 FM and 2 AM stations. Since this statement shows that there are adequate stations in every market, the Applicant is in full compliance with the Commission's Rules regarding multiple ownership concerning 47 C. F. R. Section 73.3555 of the Commission's Rules using the contour overlap method.

The Applicant has no other commonly owned stations with contours that overlap stations WNTJ (AM), WCCL (FM), and WLKH (FM).

All attachments were created utilizing the Radiosoft Comstudy software and the Commission's CDBS system for station information. All the predicted contours were created in accordance with the Commission's Rules.

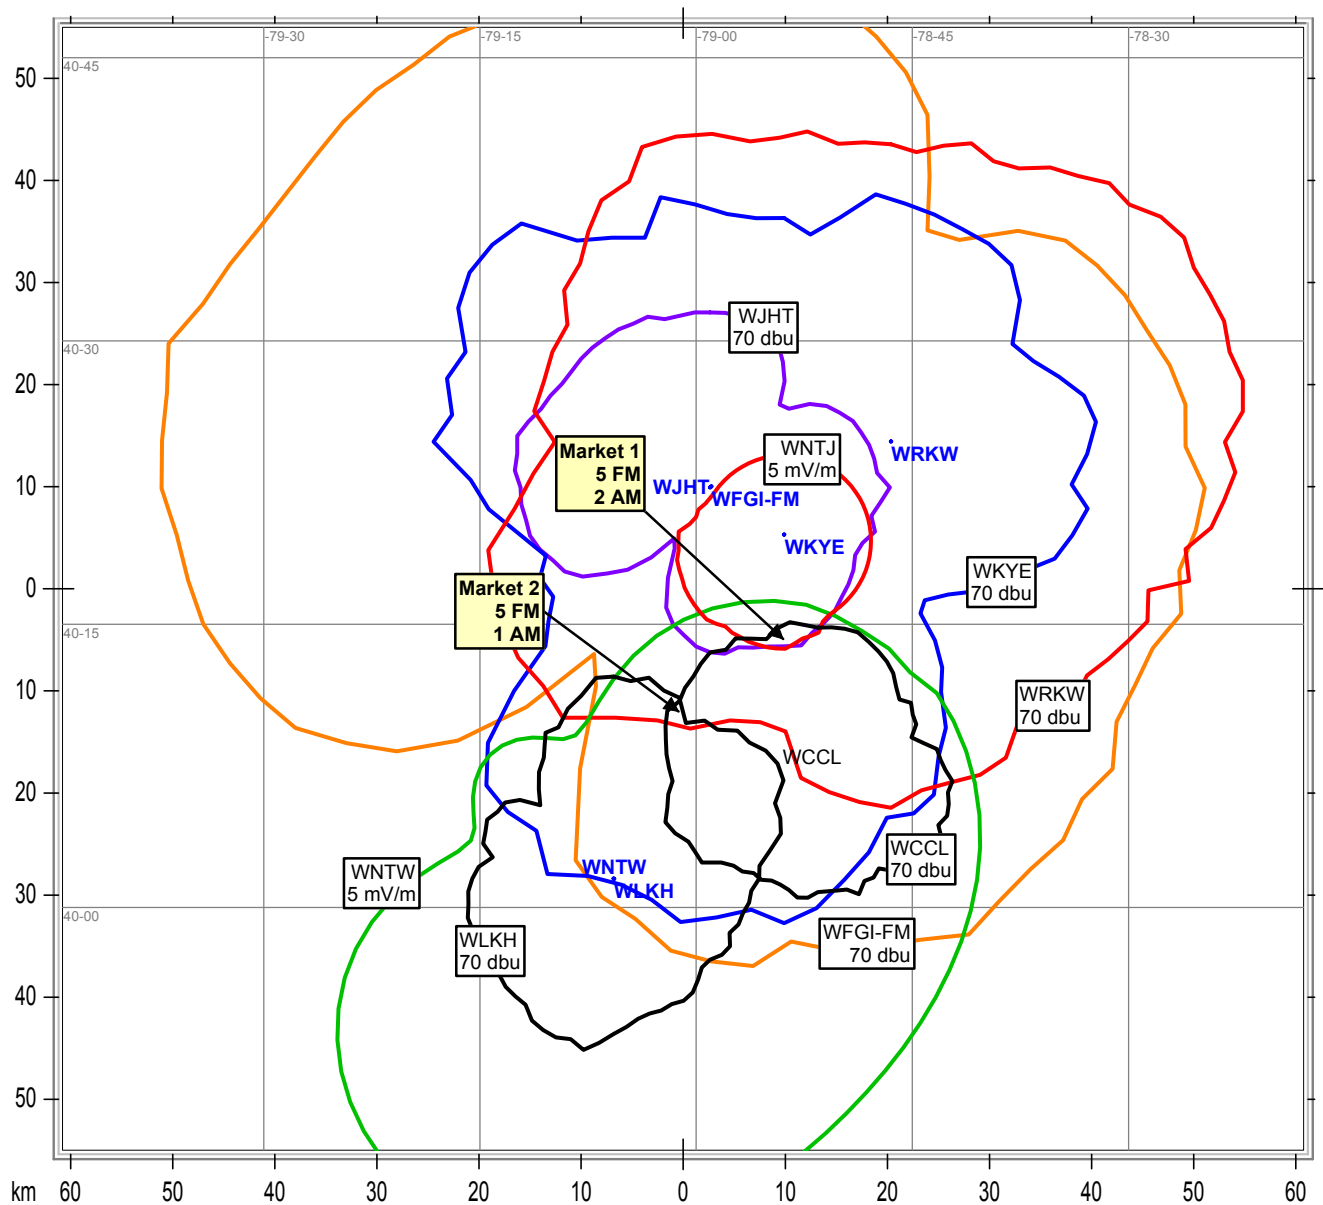

Affidavit:

This statement has been prepared by Lynn A. Deppen, Member and holder of General Radiotelephone license PG-3-9140. His qualifications are a matter of record with the Commission having been presented and accepted upon many occasions in the past. All statements are true and to the best of my knowledge.
