

**Results Radio of the North State, LLC**

**EXHIBIT NO. 14  
FCC Form 314  
Section III, Question 6**

**Multiple Ownership Compliance**

By this application, Assignee Results Radio of the North State, LLC seeks FCC consent to acquire Class A radio station KSRT(FM), Cloverdale, California, from Point Broadcasting. As noted in Exhibit No 13, entities under common control with Assignee own other California radio stations, including Class A radio station KMHX(FM), Windsor, California. The principal community contour of KSRT(FM) overlaps the principal community contour of KMHX(FM) (but not the principal community contour of other existing co-owned stations). As demonstrated in the Hammett & Edison Statement (attached as a separate document), the resulting radio market defined by the mutually overlapping KSRT(FM)-KMHX(FM) contours includes a minimum of 21 operating commercial radio stations. Under Section 73.3555(a)(1)(iii), in radio markets with between 15 and 29 commercial radio stations (including the co-owned stations), an entity may own up to six radio stations, not more than four of which are in the same service (AM or FM). Thus, the proposed co-ownership of two FM stations in the pertinent radio market complies with the FCC's effective radio local ownership rules.
