Re: KUDE (FM), Nephi, Utah
Facility Identification Number: 72769
SLC Divestiture Trust I
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed January 6, 2011, on behalf of SLC Divestiture Trust I ("SLC"). SLC requests further extension of the special temporary authority ("STA") granted on January 11, 2008, to operate Station KUDE with emergency antenna facilities pursuant to Section 73.1680¹. In support of the request, SLC states that it now appears that Station KUDE will be able to return to its licensed site, pending completion of the sale of the licensed tower.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KUDE may continue to operate with the following facilities:

¹ KUDE is licensed for operation on Channel 280C (103.9 MHz) with effective radiated power of 74 kilowatts (H only) and antenna height above average terrain of 684 meters.

Geographic coordinates:	40° 16' 58" N, 111° 56' 11" W (NAD 1927)
Channel	280 (103.9 MHz)
Effective radiated power:	0.2 kilowatt (Max-DA, H&V)
Antenna	Nicom, model BK Y3P, directional
Antenna orientation	95° True
Antenna height:	
above ground:	24 meters
above mean sea level:	2347 meters
ASRN ²	1251577

SLC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **September 7, 2011**.

Sincerely,

Charles N. Miller, Engineer
