

EDUCATIONAL PROGRAM

BERING LIGHT CORPORATION

November 1, 2013

Pat McCoy
Bering Light Corp
64 Beach Rd
Unalakleet, AK 99684

The Bering Light Corporation of Unalakleet, Alaska proposes to establish an LPFM radio station to be used as a tool to educate the residents of Unalakleet in various scientific fields that affect the way they live as well as teaching from the Bible. Our desire is that they might use this knowledge to better their lives, protect their way of life as Inuit people, survive the harsh conditions that surround them as well as to inform them about Christianity and what it is about hoping that they will incorporate it into their lives.

Bering Light Corporation has had a presence in Unalakleet during which they have been educating the people about the Bible and other scientific areas. The radio will be used to further these goals by continuing to work within the community and broadcasting local information to assist their way of living.
