Dear Applicant:

A search of the FCC tower registration database, found at <http://wtbwww05.fcc.gov/antenna/ASRQuery.html>, reveals that discrepancies exist between the data listed for the antenna tower structure referenced in your application and the FCC's tower registration database. (Please note that all coordinates found in the FCC tower registration database are NAD 83 and that the conversion from NAD 27 may be required before requesting a search.)

Accordingly, you must file electronically, an amendment to make the tower information match that of the FCC tower registration database or submit to the Commission the registration number for the transmitter antenna tower structure at the coordinates and heights referenced in your application. You must appropriately respond to this letter within (30) days from the date of this letter or your application WILL BE DISMISSED.

Sincerely

Hossein Hashemzadeh  
Associate Chief
