To Whom It May Concern:

On Friday, May 22, 2015, I observed the completed installation of the directional antenna for FM Radio Station WGHW, Facility ID #89986, as authorized by FM Station Construction Permit File Number BMPED-20150402AAT, for adherence to the specifications of the station's Construction Permit.

Based on ground observation from several perspectives around the tower, it appears that the station's antenna installation meets the terms of the above referenced Construction Permit.
