Re: Radio License Holdings LLC (RLH)
KABC(AM), Los Angeles, CA
Facility Identification Number: 33254
Special Temporary Authority (STA)
BSTA- 20170823AAG

Dear Mr. Denning:

This is in reference to the request filed on August 23, 2017. RLH requests an extension of the STA granted on February 24, 2017, to operate ND from the construction permit site pending further action on BMML-20170710ACF.¹ In support of the request, we note that the license application remains pending at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is GRANTED, and RLH may continue to operate ND with one of the construction permit towers (1015922) using a maximum of 5 kW day

¹ KABC(AM) was licensed for operation on 790 kHz with 5 kW (ND day and DA night), and now has been authorized per (BP-20151013ABI) to operate from a different site with 6.6 kW ND day and 6.8 kW DA night.

and 3.5 kW night pending further action on the license application. RLH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR 1.1310.

This authority expires on **March 6, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of a large loop on the left and a series of three connected loops on the right.

Joseph Szczesny, Engineer
