TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Central Florida Educational Foundation, Inc., ("CFEF"), licensee of FM translator station W273CA, Channel 273D, Orlando, Florida. CFEF has a construction permit for make minor changes in the W273CA facilities by relocating to another site (BPFT-20110729AAX). This instant application seeks a license to cover the outstanding permit. Exhibit A is a calculation of the transmitter power output for FM translator W273CA.

There are two special operating conditions/restrictions listed on the W273CA permit. The first condition states that CFEF will reduce the power of W273CA or cease operation to insure persons with access to the site are not exposed to radio frequency radiation levels above the limits. CFEF states that it will, in cooperation with other tower users, reduce the power of W273CA or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines.

Condition #2 states that an application for license (FCC Form 350) must be on file before the commencement of operation. This instant application satisfies this condition. Based on the foregoing, it is believed that all conditions have been satisfied and W273CA has been constructed in compliance with the Commission's rules.
