

NEW-FM CRAWFORD, NE CH201A

EXHIBIT 15: SPACING REQUIREMENTS (AMENDED)

The data below was obtained from the FCC's online databases based on a search from the proposed amended antenna coordinates at radii corresponding to the minimum separation requirements for class C relative to class A facilities.

CO-CHANNEL STATIONS AND APPLICATIONS

Call ERP	Channel HAAT	Class Service	Frequency Dist(km) Dist(mi)	Status Azimuth	City Licensee/Permittee	State	Country	File Number	Docket	FacilityID

*** 4 FM Records within 95.00 km distance of 42° 39' 25.00" N, 103° 35' 47.00" W ***

These data indicate that two of the new FM applications above (BNPED-20071022BTQ, Alliance and BNPED-20071016AIF, Chadron) are short-spaced relative to the proposed amended facilities. Contour protection is used in Exhibit 16 to assure that prohibited overlap with these applications will not occur.
