KQHO-LP - Facility Id No.: 127916

Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that the proposed tower requires registration with the FAA based on the proposed overall tower height above ground level of 312 meters as indicated in the proposed construction permit.

Based on the engineering specification of the proposed tower, below is the tower determine results study for your review:

| DETERMINATION Results   |                  |
|---|------------------|
| This structures requires registration. The antenna structure is taller than 60.96 meters (200 feet) and does not meet the criteria for the 6.10-meter (20-foot) Rule exception. |                  |
| Your Specifications   |                  |
| NAD83 Coordinates   |                  |
| Latitude  | 29-45-36.0 north |
| Longitude   | 095-21-49.0 west |
| Measurements (Meters)   |                  |
| Overall Structure Height (AGL)  | 312              |
| Support Structure Height (AGL)  | 0                |
| Site Elevation (AMSL)   | 15               |
| Structure Type  |                  |
| TOWER - Free standing or Guyed Structure used for Communications Purposes   |                  |

You are hereby given the opportunity to file a minor amendment to resolve the specified tower registration issue within (30) days from the date of this letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely
