Dear FCC:

The following is an affidavit for established local applicant concerning the nonprofit Fab-5. Fab-5 was formed in January 2000. Because Fab-5 has operated via a fiscal sponsor of nonprofit Shunpike, it needs to officially validate its program entity:

- Fab-5 is a valid nonprofit entity as it has operated via fiscal sponsor (nonprofit) Shunpike. Its fiscal sponsor agreement is attached to this application. It officially started doing business (headquarters) July 7, 2011 at **717 Tacoma Ave S, Suite A, Tacoma, WA 98402** prior or at least on that date, as denoted on this contract. This is within 10 miles of the prescribed radio channel site being applied for.
- Fab-5 has been located moved to **1316 South Martin Luther King Jr Way, Tacoma WA 98405** January 1st, 2012 operating with business hours of “3:00pm – 9:00pm, Tuesday - Friday” (new headquarters). This is within 10 miles of the prescribed radio channel site being applied for. A copy of the lease is included here to donate this headquarters location.
- The attached brochure from Summer 2009 corroborates its program existence well prior to two years ago.
- Fab 5 is currently registered as a nonprofit with the Washington Secretary of State.
- Fab-5's board has resided within 10 miles of the prescribed radio channel site being applied for at least 2 years.
