This authorization re-issued to reflect

Subject to the provisions of the Communications Act of 1934, as amended,
subsequent acts and treaties, and all regulations heretofore or hereafter
made by this Commission, and further subject to the conditions set forth
in this permit, the permittee is hereby authorized to construct the radio
transmitting apparatus herein described. Installation and adjustment of
equipment not specifically set forth herein shall be in accordance with
representations contained in the permittee's application for construction
permit except for such modifications as are presently permitted, without
application, by the Commission's Rules.

Commission rules which became effective on February 16, 1999, have a
bearing on this construction permit. See Report & Order, Streamlining of
Mass Media Applications, MM Docket No. 98-43, 13 FCC RCD 23056, Para.
77-90 (November 25, 1998); 63 Fed. Reg. 70039 (December 18, 1998).
Pursuant to these rules, this construction permit will be subject to
automatic forfeiture unless construction is complete and an application
for license to cover is filed prior to expiration. See Section 73.3598.

Equipment and program tests shall be conducted only pursuant to Sections
73.1610 and 73.1620 of the Commission's Rules.

Special operating conditions or restrictions:

1   The authorization of a license to operate this station is conditioned
     upon the use of a transmitter that has been type accepted or meets
     Commission type acceptance requirements at a visual carrier frequency
     tolerance of plus/minus 1 kHz.   In the event the transmitter has not
     been type accepted at this tolerance, the permittee shall, in the
     license application, provide full engineering data that demonstrates
     compliance with Section 74.750 (c)(3)(iii) of the Commission's Rules.

2   This authorization is subject to the condition that low power
     television is a secondary service, and that low power television
     and television translator stations must not cause interference
     to the reception of existing or future full service television
     stations on either allotted NTSC or DTV channels, and must
     accept interference from such stations.

Special operating conditions or restrictions:

3   This authorization is entitled to displacement relief only in order to
     eliminate or avoid interference conflicts. Priority over pending Class
     A TV, LPTV, or TV Translator applications will not be afforded to the
     displacement application solely by virtue of operating in the 700 MHz
     Band.

                    ***   END OF AUTHORIZATION   ***
