Digital TSID: 3101

Call Sign: KWPX-TV

License File Number: BLCDT-20090612AIM

This license covers permit no.: BPCDT-20080317AHW

Grant Date: July 07, 2010

This license expires 3:00 a.m.
local time, February 01, 2015.

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Height of radiation center above average terrain: 716 Meters

Antenna structure registration number: 1056094

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

- 1 Operation with the facilities specified herein is subject to the following condition: If a television station listed below is authorized by Canada and begins operation, it must be protected. Protection must be determined to be acceptable by both the FCC and the Canadian government, and may be based on additional negotiation regarding the current facilities, an agreement to accept interference or the operation of reduced facilities. Unless it is deleted earlier, this condition expires at the end of the Canadian DTV transition, currently expected to be August, 2011.

Channel 33 Vancouver, BC
