VPM MEDIA CORPORATION

23 Sesame Street

Richmond VA 23235

Facility Id: 60111

Analog TSID: 3080

Digital TSID: 3081

Call Sign: WVPT

Permit File Number: BPEDT-20120321ADL

Kevin R. Harding

Associate Chief

Video Division

Media Bureau

Grant Date: April 04, 2012

This permit expires 3:00 a.m.  
local time, 36 months after the  
grant date specified above.

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

Name of Permittee: VPM MEDIA CORPORATION

Station Location: VA-STAUNTON

Frequency (MHz): 198 - 204

Channel: 11

Hours of Operation: Unlimited

Antenna Coordinates: North Latitude: 38 deg 09 min 54 sec

West Longitude: 79 deg 18 min 51 sec

Callsign: WVPT

Permit No.: BPEDT-20120321ADL

DTS Site Number: 2

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Antenna type: (directional or non-directional): Directional

Description: SCA, DRV-1

Major lobe directions 0  
(degrees true):

Antenna Coordinates: North Latitude: 37 deg 59 min 00 sec

West Longitude: 78 deg 29 min 02 sec

Transmitter output power: As required to achieve authorized ERP.

Maximum effective radiated power (Average): 0.1 kW  
-10 DBK

Height of radiation center above ground: 68 Meters

Height of radiation center above mean sea level: 495 Meters

Height of radiation center above average terrain: 333 Meters

Antenna structure registration number: 1018222

Overall height of antenna structure above ground (including obstruct lighting if any) see the registration for this antenna structure.

Callsign: WVPT

Permit No.: BPEDT-20120321ADL

DTS Site Number: 3

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Antenna type: (directional or non-directional): Directional

Description: SCA, CL-713

Major lobe directions 355  
(degrees true):

Antenna Coordinates: North Latitude: 38 deg 20 min 39 sec

West Longitude: 79 deg 35 min 47 sec

Transmitter output power: As required to achieve authorized ERP.

Maximum effective radiated power (Average): 0.008 kW  
-21 DBK

Height of radiation center above ground: 43 Meters

Height of radiation center above mean sea level: 1338 Meters

Height of radiation center above average terrain: 470 Meters

Antenna structure registration number: None

Overall height of antenna structure above ground: 46 meters.

## Special operating conditions or restrictions:

- 1 The grant of this construction permit is subject to the condition that, with ample time before commencing operation, you make a good faith effort to identify and notify health care facilities (e.g., hospitals, nursing homes, see 47 CFR 15.242(a)(1)) within your service area potentially affected by your DTV operations. Contact with state and/or local hospital associations and local governmental health care licensing authorities may prove helpful in this process. During this pre-broadcast period, you must provide all notified entities with relevant technical details of your operation, such as DTV channel, targeted on-air date, effective radiated power, antenna location, and antenna height. You are required to place in the station's public inspection file documentation of the notifications and contacts made and you may not commence operations until good faith efforts have been made to notify affected health care facilities. During this pre-broadcast period and for up to twenty (20) days after commencing operations, should you become aware of any instances of medical devices malfunctioning or that such devices are likely to malfunction due to your DTV operations, you must cooperate with the health care facility so that it is afforded a reasonable opportunity to resolve the interference problem. At such time as all provisions of this condition have been fulfilled, and either upon the expiration of twenty (20) days following commencement of operations or when all known interference problems have been resolved, whichever is later, this condition lapses.
