

United States of America
FEDERAL COMMUNICATIONS COMMISSION
FM BROADCAST STATION LICENSE

Authorizing Official:

Official Mailing Address:

LA GIGANTE SIEMBRA INC.
P.O. BOX 846
AGUADA PR 00602

Rodolfo F. Bonacci
Assistant Chief
Audio Division
Media Bureau

Facility Id: 11620

Call Sign: WLUZ

License File Number: BLED-20160831ACF

Grant Date: September 16, 2016

This license expires 3:00 a.m.
local time, February 01, 2020.

This license covers permit no.: BPED-20150626AAP

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Name of Licensee: LA GIGANTE SIEMBRA INC.

Station Location: PR-LEVITTOWN

Frequency (MHz): 88.5

Channel: 203

Class: B

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: 2.20 kW

Antenna type: Directional

Description: PSI PSIFMR-4C-5WS-DA, 4 bays, .5 wavelength spaced

Antenna Coordinates: North Latitude: 18 deg 18 min 36 sec
 West Longitude: 65 deg 47 min 41 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW):	4.7	4.7
Maximum effective radiated power (kW):	4.7	4.7
Height of radiation center above ground (Meters):	50	50
Height of radiation center above mean sea level (Meters):	1054	1054
Height of radiation center above average terrain (Meters):	847	847
Antenna structure registration number: 1011469		

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

- 2 Grant of this license application is conditioned on the continuous operation of the licensed facility for the twelve-month period following grant. The failure of the facility to so operate will result in the rescission of this grant, dismissal of the license application and the forfeiture of the associated construction permit pursuant to 47 C.F.R. § 73.3598(c) unless the licensee rebuts the presumption that the authorized facilities were temporarily constructed.

Special operating conditions or restrictions:

- 3 The licensee has demonstrated compliance with the FCC radiofrequency electromagnetic field exposure guidelines based upon the usage of the antenna specified herein. If the licensee makes any changes in facilities via modification of license application in accordance with 47 CFR section 73.1690(c), the subsequent Form 302-FM, application for license, must include a revised RF field showing to demonstrate continued compliance with the FCC guidelines.
- 4 Further modifications of Station WCRP will not be construed as a "per se" modification of WLUZ's facility. (See Educational Information Corporation, 6 FCC Rcd 2207 (1991)).
- 5 This application is being granted prior to the completion of the International Telecommunications Union (ITU) registration process. Therefore, any construction of and operation with the facilities specified herein is at applicant's own risk and subject to modification, suspension or termination without right to hearing, if found by the Commission to be necessary in order to conform to the provisions of the registration process of the ITU, and to bilateral and other multilateral agreements between the United States and other countries.
- 6 The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by construction permit: BPED-20150626AAP

A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power:

4.7 kilowatts.

Principal minima and their associated field strength limits:

120 degrees True: 0.75 kilowatts

*** END OF AUTHORIZATION ***
