Facility Id: 58342  
Analog TSID: 3384  
Digital TSID: 3385  
Call Sign: WJWN-TV  
Permit File Number: BPCDT-19990719KG

Grant Date: July 13, 2001

This permit expires 3:00 a.m.  
local time, June 05, 2003.

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

Name of Permittee: AMERICA-CV STATION GROUP, INC., DEBTOR-IN-POSSESSION

Antenna Coordinates: North Latitude: 18 deg 19 min 06 sec  
West Longitude: 67 deg 10 min 42 sec

[illegible]

```

Height of radiation center above ground:          20.1 Meters
Height of radiation center above mean sea level: 389.8 Meters
Height of radiation center above average terrain: 324 Meters
Antenna structure registration number: None
Overall height of antenna structure above ground: 34.1 me

```

1 The grant of this construction permit is subject to the condition that, with ample time before commencing operation, you make a good faith effort to identify and notify health care facilities (e.g., hospitals, nursing homes, see 47 CFR 15.242(a)(1)) within your service area potentially affected by your DTV operations. Contact with state and/or local hospital associations and local governmental health care licensing authorities may prove helpful in this process. During this pre-broadcast period, you must provide all notified entities with relevant technical details of your operation, such as DTV channel, targeted on-air date, effective radiated power, antenna location, and antenna height. You are required to place in the station's public inspection file documentation of the notifications and contacts made and you may not commence operations until good faith efforts have been made to notify affected health care facilities. During this pre-broadcast period and for up to twenty (20) days after commencing operations, should you become aware of any instances of medical devices malfunctioning or that such devices are likely to malfunction due to your DTV operations, you must cooperate with the health care facility so that it is afforded a reasonable opportunity to resolve the interference problem. At such time as all provisions of this condition have been fulfilled, and either upon the expiration of twenty (20) days following commencement of operations or when all known interference problems have been resolved, whichever is later, this condition lapses.
