(degrees true):

Antenna Coordinates: North Latitude: 43 deg 50 min 45 sec

West Longitude: 70 deg 45 min 43 sec

Transmitter output power: As required to achieve authorized ERP.

Maximum effective radiated power (Average): 125 kW

21 DBK

Height of radiation center above ground: 487 Meters

Height of radiation center above mean sea level: 749.7 Meters

Height of radiation center above average terrain: 595.4 Meters

Antenna structure registration number: 1045602

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

The grant of this construction permit is subject to the condition that, with ample time before commencing operation, you make a good faith effort to identify and notify health care facilities (e.g., hospitals, nursing homes, see 47 CFR 15.242(a)(1)) within your service area potentially affected by your DTV operations. Contact with state and/or local hospital associations and local governmental health care licensing authorities may prove helpful in this process. During this pre-broadcast period, you must provide all notified entities with relevant technical details of your operation, such as DTV channel, targeted on-air date, effective radiated power, antenna location, and antenna height. You are required to place in the station's public inspection file documentation of the notifications and contacts made and you may not commence operations until good faith efforts have been made to notify affected health care facilities. During this pre-broadcast period and for up to twenty (20) days after commencing operations, should you become aware of any instances of medical devices malfunctioning or that such devices are likely to malfunction due to your DTV operations, you must cooperate with the health care facility so that it is afforded a reasonable opportunity to resolve the interference problem. At such time as all provisions of this condition have been fulfilled, and either upon the expiration of twenty (20) days following commencement of operations or when all known interference problems have been resolved, whichever is later, this condition lapses.

Callsign: WMEA-TV Permit No.: BPEDT-20000204AAE

Special operating conditions or restrictions:

Operation with the facilities specified herein is subject to suspension, termination or modification without right to hearing if specifically objected to by Industry Canada.
