FEDERAL COMMUNICATIONS COMMISSION TELEVISION BROADCAST STATION CONSTRUCTION PERMIT

Authorizing Official:

Official Mailing Address:

KTUL Licensee, LLC 10706 Beaver Dam Road Cockeysville MD 21030

Facility Id: 35685 Analog TSID: 2368 Digital TSID: 2369 Call Sign: KTUL

Permit File Number: BMPCDT-20020326ABC

This Permit Modifies Permit No.: BPCDT-19991026ACJ

Clay C. Pendarvis Associate Chief Video Division Media Bureau

This permit expires 3:00 a.m. local time, July 16, 2003.

Grant Date: April 25, 2002

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

Name of Permittee: KTUL Licensee, LLC

Station Location: OK-TULSA Frequency (MHz): 192 - 198

Channel: 10

Hours of Operation: Unlimited

Callsign: KTUL Permit No.: BMPCDT-20020326ABC

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Antenna type: (directional or non-directional): Directional

Description: DIE, THV-5A10-R C170 SM
Beam Tilt: 0.5 Degrees Electrical

Major lobe directions 90 320 322

(degrees true):

Antenna Coordinates: North Latitude: 35 deg 58 min 08 sec

West Longitude: 95 deg 36 min 55 sec

Transmitter output power: As required to achieve authorized ERP.

Maximum effective radiated power (Average): 6.9kW

8.4 DBK

Height of radiation center above ground: 530.5 Meters

Height of radiation center above mean sea level: 726.5 Meters

Height of radiation center above average terrain: 542.3 Meters

Antenna structure registration number: 1010985

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

The grant of this construction permit is subject to the condition that, with ample time before commencing operation, you make a good faith effort to identify and notify health care facilities (e.g., hospitals, nursing homes, see 47 CFR 15.242(a)(1)) within your service area potentially affected by your DTV operations. Contact with state and/or local hospital associations and local governmental health care licensing authorities may prove helpful in this process. During this pre-broadcast period, you must provide all notified entities with relevant technical details of your operation, such as DTV channel, targeted on-air date, effective radiated power, antenna location, and antenna height. You are required to place in the station's public inspection file documentation of the notifications and contacts made and you may not commence operations until good faith efforts have been made to notify affected health care facilities. During this pre-broadcast period and for up to twenty (20) days after commencing operations, should you become aware of any instances of medical devices malfunctioning or that such devices are likely to malfunction due to your DTV operations, you must cooperate with the health care facility so that it is afforded a reasonable opportunity to resolve the interference problem. At such time as all provisions of this condition have been fulfilled, and either upon the expiration of twenty (20) days following commencement of operations or when all known interference problems have been resolved, whichever is later, this condition lapses.

*** END OF AUTHORIZATION ***
