ARIZONA BOARD OF REGENTS FOR BENEFIT OF UNIV
UNIVERSITY OF ARIZONA
P.O. BOX 210067
TUCSON AZ 85721

Clay C. Pendarvis
Associate Chief
Video Division
Media Bureau

Facility Id: 2722

Analog TSID: 222

Digital TSID: 223

Call Sign: KUAS-TV

Permit File Number: BMPEDT-20020326ABG

This Permit Modifies Permit No.: BPEDT-20000428ACJ

Grant Date: November 18, 2002

This permit expires 3:00 a.m.
local time, May 01, 2003.

Subject to the provisions of the Communications Act of 1934, as amended, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this permit, the permittee is hereby authorized to construct the radio transmitting apparatus herein described. Installation and adjustment of equipment not specifically set forth herein shall be in accordance with representations contained in the permittee's application for construction permit except for such modifications as are presently permitted, without application, by the Commission's Rules.

Equipment and program tests shall be conducted only pursuant to Sections 73.1610 and 73.1620 of the Commission's Rules.

Name of Permittee: ARIZONA BOARD OF REGENTS FOR BENEFIT OF UNIV OF AZ.

Station Location: AZ-TUCSON

Frequency (MHz): 554 - 560

Channel: 28

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Antenna type: (directional or non-directional): Directional

Description: D1E, TFU-16GBH-R 1C170 DC

Beam Tilt: 0.5 Degrees Electrical

Major lobe directions (degrees true):	5	70	135
--	---	----	-----

Antenna Coordinates: North Latitude: 32 deg 12 min 53 sec

West Longitude: 111 deg 00 min 21 sec

Transmitter output power: As required to achieve authorized ERP.

[illegible]

Height of radiation center above ground: 9.6 Meters

Height of radiation center above mean sea level: 953.6 Meters

Height of radiation center above average terrain: 177.9 Meters

Antenna structure registration number: None

Overall height of antenna structure above ground: 22.6 meters.

Special operating conditions or restrictions:

- 1 The grant of this construction permit is subject to the condition that, with ample time before commencing operation, you make a good faith effort to identify and notify health care facilities (e.g., hospitals, nursing homes, see 47 CFR 15.242(a)(1)) within your service area potentially affected by your DTV operations. Contact with state and/or local hospital associations and local governmental health care licensing authorities may prove helpful in this process. During this pre-broadcast period, you must provide all notified entities with relevant technical details of your operation, such as DTV channel, targeted on-air date, effective radiated power, antenna location, and antenna height. You are required to place in the station's public inspection file documentation of the notifications and contacts made and you may not commence operations until good faith efforts have been made to notify affected health care facilities. During this pre-broadcast period and for up to twenty (20) days after commencing operations, should you become aware of any instances of medical devices malfunctioning or that such devices are likely to malfunction due to your DTV operations, you must cooperate with the health care facility so that it is afforded a reasonable opportunity to resolve the interference problem. At such time as all provisions of this condition have been fulfilled, and either upon the expiration of twenty (20) days following commencement of operations or when all known interference problems have been resolved, whichever is later, this condition lapses.

Special operating conditions or restrictions:

- 2 Prior to construction of the tower authorized herein, permittee shall notify AM Station(s) listed below so that, if necessary, the AM station(s) may determine operating power by the indirect method and request temporary authority from the Commission in Washington, D.C. to operate with parameters at variance in order to maintain monitoring point field strengths within authorized limits. Permittee shall be responsible for the installation and continued maintenance of detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the AM station(s). Both prior to construction of the tower and subsequent to the installation of all appurtenances thereon, a partial proof of performance, as defined by Section 73.154(a) of the Commission's Rules, shall be conducted to establish that the AM array has not been adversely affected and, prior to or simultaneous with the filing of the application for license to cover this permit, the results submitted to the Commission.
KXEW(AM) and KCEE(AM)
(Revised March 14, 1983)
