Students often do not know what they want to do and are unsure of potential interests they may have that could be a career. Career Day provides an avenue to view experts in their respective fields as they discuss their work, the education/training needed to prepare for the job, and the experiences that led them to choose their career. To encourage students to make informed decisions, they must be introduced to career awareness, such as the concept that success in most careers requires education and training. Middle school is an ideal age at which to expose students to the challenging world of work. The program's motivational and inspirational message of each guest empowers audiences of all ages to investigate career opportunities, which has been proven to enhance academic performance, facilitate high school completion and encourage postsecondary education. Each segment of Career Day delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, dedication, and perseverance children can apply to their lives. (STATION BROADCASTS IN DIGITAL ONLY)
