Include any other comments or information you want the Commission to consider in evaluating your compliance with the Children's Television Act (or use this space for supplemental explanations). This may include information on any other noncore educational and informational programming that you aired this quarter or plan to air during the next quarter, or any existing or proposed non-broadcast efforts that will enhance the educational and informational value of such programming to children. See 47 C.F.R. Section 73.671, NOTES 2 and 3.	In its amended second quarter report Licensee apprised the Commission of a deficiency in its Core Programming obligations. To remedy this oversight, Licensee committed to broadcast additional Core Programming and Non-Core Educational and Informational Programming across its non-primary digital program streams during the second and third quarters of 2013 to ensure a sufficient of amount of Core Programming and Non-Core Educational Programming is broadcast. During the third quarter, Licensee expended numerous hours and funds to securing quality Core Programming. Licensee also spent significant time revising program schedules to prepare for the broadcast of Core Programming. Licensee was eventually able to obtain over 600 hours of Core Programming Content. However, because of the time necessary to locate and obtain licenses for qualified programming, Licensee was unable to recoup its Core Programming shortage in the third quarter. Having obtained sufficient, qualified content at the time of this filing, Licensee is dedicating the majority of its broadcast time on certain substations during the fourth quarter to Core Programming and believes that any deficiency will be corrected by the end of the 2013 year. Licensee is amending this report for organizational purposes and to correct clerical errors. The original report was timely filed.
