Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Cubix: Robots for Everyone takes place in the year 2040 in Bubble Town where robots outnumber humans. The series centers around a 13-year old boy named Connor, his robot Cubix, and the members of a special club known as Botties. Each member of the Botties has their own robot with a unique characteristic. The robots are friendly and efficient, and they function in imaginative ways to help make Bubble Town a great place to live. But it's a good vs. evil world, and Connor and the Botties learn lessons of right and wrong, loyalty, teamwork, courage and problem solving during their adventures to thwart Dr. K's evil schemes to take control of Bubble Town's robots. Each member of the Botties faces the same real-life conflicts that children face such as feeling sad and alone, feeling insecure and vulnerable, and having a fear of failure. Throughout the series they learn the importance of perseverance and the importance of embracing their differences to overcome obstacles.
