Digital Core
Programming

Question	Response
State the average number of hours of Core Programming per week broadcast by the station on its main program stream	3.0
State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream	168.0
State the average number of hours per week of Core Programming broadcast by the station on other than its main program stream. See 47 C.F.R. Section 73.671:	4.0
Does the Licensee provide information identifying each Core Program aired on its station, including an indication of the target child audience, to publishers of program guides as required by 47 C.F.R. Section 73.673?	Yes
Does the Licensee certify that at least 50% of the Core Programming counted toward meeting the additional programming guideline (applied to free video programming aired on other than the main Yes No program stream) did not consist of program episodes that had already aired within the previous seven days either on the station's main program stream or on another of the station's free digital program streams?	Yes

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This half-hour weekly series for teenagers, which airs on our main digital channel, provides entertaining and educational career guidance for young teenagers. In each episode, various careers are showcased on location at their particular job, giving the viewers a very realistic look into the day-to-day workings of their particular job, giving viewers in turn a very realistic look into the day-to-day workings of many different careers. This program meets the definition of core programming because it educates and informs children on the numerous careers available to them, what the job will actually consist of and what they can expect on a day-to-day basis in that particular career.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Think Big, which airs on our main digital channel, features top kid inventors who face off against each other in an Invent-Off to see who can come up with the most innovative and creative invention. Each episode is set in the Think Tank, a studio filled top to bottom with art supplies and construction materials. Two teams, each led by a Featured Inventor, brainstorm, choose materials, and then sketch, design and build their own idea. Once completed, the competing inventions are presented to a judge. The best invention wins bragging rights and the coveted Genius Cup. In Think Big, kids acquire and showcase their skills in creativity, science, innovation, marketing, design and teamwork. Think Big is a kid-hosted entertaining series for young people. The program meets the definition of core programming because it follows the world's most innovative kids as they create and invent new toys, games, learning tools, websites and new modes of transportation. Some even start their own companies.

Length of Program	30 mins
Age of Target Child Audience	13 years to 16 years

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Wild America, which airs on our main digital channel, is the first and only wildlife and nature series to focus exclusively on the wild animals and wild lands of North America. Hosted by award-winning wildlife photographer and premier naturalist Marty Stouffer, the series features footage of mammals, birds, reptiles, fish and insects throughout the entire continent. Viewers take a guided journey to witness the vast wonders and infinite diversity of nature first hand. Series highlights include a magnificent menagerie of mice, moose, muskox, marmot, mollusk, mink, mockingbird, marten, manatee, and many more. Wild America is a series families can enjoy together. Parents and children will be delighted as they learn about nature. This program meets the definition of core programming because it educates and informs children on how all wild creatures, including man, are inter-connected, through the animals own eye view, focusing on the reality of life in the wild, including birth, mating, predation and death.

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Dragonfly TV, which airs on our main digital channel, is a weekly half-hour science series featuring real kids doing real science and investigating science on their own. The show explores every kind of science, from looking at the mysteries of the body to the power of tornadoes, in a highly entertaining and engaging way for children. The series demonstrates practical applications of math and science with enjoyable hands-on projects. The show meets the definition of core programming because it educates and informs teenagers by promoting critical thinking and problem solving skills. Young viewers see other teens like themselves investigating, dreaming and doing!

Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	This program, airing on our second digital channel, features student athletes and their dedication to succeed in their sport while excelling in their academics and maintaining their personal lives. This show illustrates the importance of the many outstanding extracurricular activities students participate in, showing how each is a vital element to the entire student body, including the band, cheerleading, and drill team, which creates a balanced picture of the extracurricular activities available for the high school student. The program emphasizes how education extends beyond the classroom and how these activities provide important challenges and lessons that mold students lives. Sports Stars of Tomorrow meets the definition of core programming as it displays the hard work and dedication that it takes to be a true sports star and it chronicles the trials and tribulations of young athletes as they strive to become top level performers in their expertise. Students help realize their full potential in life and in their participation.

Each episode is set in the Think Tank, a studio filled top to bottom with art supplies and construction materials. Two teams, each led by a Featured Inventor, brainstorm, choose materials, and then sketch, design and build their own idea. Once completed, the competing inventions are presented to a judge. The best invention wins bragging rights and the coveted Genius Cup. In Think Big, kids acquire and showcase their skills in creativity, science, innovation, marketing, design and teamwork. Think Big is a kid-hosted entertaining series for young people. The program meets the definition of core programming because it follows the world's most innovative kids as they create and invent new toys, games, learning tools, websites and new modes of transportation. Some even start their own companies.

Other Matters (13 of 13)	Response
Program Title	Biz Kids
Origination	Syndicated
Days/Times Program Regularly Scheduled	Sunday at 230pm
Total times aired at regularly scheduled time	13
Length of Program	30 mins
Age of Target Child Audience from	13 years to 16 years
Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Biz Kids, which airs on our second digital channel, serves the educational and informational needs of children 13-16 years of age, by educating children on all aspects of the business world. Included in the program are segments on the importance of understanding the economy and basic business principles. The series features teens starting their own businesses while they actively solve problems that crop up, while at the same time developing important life skills that help them not only in the business world, but in their everyday lives.

Certification
