Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	Chica is a five-year-old chick who spends her days with her parents in their costume shop, the Coop. In each episode Chica develops or encounters a problem that she cannot immediately resolve. Usually her issues involve impulse control, distractibility, judgment, and inter-personal behaviors. She and Kelly usually work on the problem through an adventure-a fantasy transformation to animation-- where Bunji and Stitches come alive and join Chica and Kelly for the problem solving process. The core educational content is primarily socio-emotional development, and Chica learns how to express herself properly, think before she acts, and interact with others effectively. She often learns that it takes hard work and practice to become proficient at different skills.

Tree Fu Tom, is a live action/animated series about a little boy who lives in a rural area and has a rich fantasy life in the woods behind his home. While in Treetopolis, Tom and his friends, Ariella, Twigs, Squirmturn and Zigzoo will invariably run into a problem or disaster that needs fixing. Tom calls upon the audience to practice original dance moves that will bring him "Big World" magic so he and his friends can resolve their challenge of the day. Educational messages reinforce positive socio-emotional content, with examples that model: being loyal to good friends, knowing how to ask for help, doing the right thing instead of what is convenient, making the effort to share rather than being selfish, or relying on teamwork in order to accomplish a goal.

In a new study, researchers found that kids who were treated four or more times with antibiotics at an early age were more likely to be obese. Experts say antibiotics may alter the bacteria in our gut which can leave children more vulnerable to weight gain. This link was only found with the use of broad spectrum antibiotics which treat a wide range of bacteria.</p> <p>Electronics in Kids Room- WNYT- October 1, 2014- 12:00 pm- WNYA- October 1, 2014- 10:00 pm Pediatric experts say electronics like tablets, smartphones and video games should be banned from children's bedrooms because they can prevent kids from falling asleep. They say even the backlit screens can disturb sleep patterns. Research has shown children who leave their devices on overnight, sleep up to one hour less on average each night. Parents can help unplug their kids at night by decreasing their screen time, establishing a bedtime routine and leading by example.</p> <p>Celiac Disease- WNYT- October 2, 2014- 12:00 pm Delaying the introduction to gluten to a baby's diet may not prevent celiac disease. Parents or children at risk for the disease due to family history are often advised to carefully time when they introduce gluten to the child. Two new studies find such timing offers no protection. Researchers say most of the risk for celiac disease appears to be genetic. Gluten is found in wheat, barley and rye and it causes problems for people with celiac disease.</p> <p>Sandals Recalled- WNYA- October 3, 2014- 10:00 pm Toys R US is recalling 19 thousand Koala Baby sandals. The butterfly wings can rip and detach, posing a choking hazard. The sandals were sold from February through last month. If you have a pair take them away from your children and return them for a refund.</p> <p>Underage Vapor Cigarettes- WNYT- October 5, 2014- 11:00 pm- October 6, 2014- 5:00 am New York banned the sale of E-cigarettes to anyone under the age of 18 but some teens who are turned away at stores, are simply going online.</p> <p>BPA Pregnancy- WNYT- October 6, 2014- 5:00 pm Previous studies have suggested BPA exposure may be contributing to rising asthma rates but a new study says not so fast. Researchers studied nearly 400 pregnant women and their babies. After five years, they found no consistent link between BPA levels and diminished lung function, or wheezing in the children.
