Describe the educational and informational objective of the program and how it meets the definition of Core Programming.	The Pajanimals are a group of four preschool aged puppets who live together in a house with their off-screen mother and father. We meet them in the bedroom where they show us their nighttime routine of brushing their teeth and having quiet conversation before falling asleep. The quiet time always turns into a discussion that results in a dream-like adventure to solve a problem, making a new friend, or dealing with a bully. The adventure takes place in several nighttime dream locales where special friends help them work through the socio-emotional problem of the day. Specific approaches to managing the problem are demonstrated and practiced during the adventure, and the children return home confident, getting ample rest for today and facing their issues tomorrow.
